<p>I attended an exhibition booth at TIF Wonder Campus, Marunouchi Kids Jumboly 2014 at Tokyo International Forum. At this booth, I explained to children and their parents how to use research equipment, a tent, sleeping bags, etc. and how to observe stuffed specimens and replica skulls of wildlife and gave some of them a mini lecture on the dhole or Indian wild dog. Through this experience, I have made kids interested in wildlife research to some extent and helped them to learn about wildlife morphology, ecology and behavior.</p>
