

Research Activity Report
Supported by “Leading Graduate Program in Primatology and Wildlife Science”
(Please be sure to submit this report after the trip that supported by PWS.)

2014. 6, 15

Affiliation/Position	Wildlife Research Center/MI
Name	Ryo Kutsuma

1. Country/location of visit
Yakushima, Japan
2. Research project
Field lecture in Yakushima by PWS
3. Date (departing from/returning to Japan)
2014. 5. 18 – 2014. 5. 26 (8days)
4. Main host researcher and affiliation
Dr. Shiro Kohshima, Professor at Wildlife Research Center
5. Progress and results of your research/activity (You can attach extra pages if needed)
Please insert one or more pictures (to be publicly released). Below each picture, please provide a brief description.
<p>I went to Yakushima island for field science course by PWS. I belonged to the group which researched Yakushima macaques. We conducted a direct observation and fecal sampling. We collected 25 feces for DNA analysis. The survey was held for four days.(5/20-5/24) It was great experience for me because I had little experience of field work. All of this course was held by English. It was so hard but my English speaking was a little better than past. I hope this course help my research someday.</p>
