1. **Country/location of visit**
   - Japan, Kumamoto Sanctuary

2. **Research project**
   - Comparative Cognitive Science Course

3. **Date (departing from/returning to Japan)**
   - 2014. 6. 17 – 2014. 6. 20 (4 days)

4. **Main host researcher and affiliation**
   - Kyoto Univ. WRC Kumamoto Sanctuary

5. **Progress and results of your research/activity** *(You can attach extra pages if needed)*
   - The purpose is to study the basic method how to study comparative cognitive science through some cognitive experiments and observations on chimpanzees and bonobos. I experienced observations and touch panel experiment and eye tracker experiment as actual used experiments. It was very short time to know a lot about chimpanzees and bonobos, but it was very interesting to know how they are like humans.
