| | 2015. May, 12 |
| Affiliation/Position | Wildlife Research Center/D1 |
| Name | Kasumi Sakakibara |

| |
|--|
| 1. Country/location of visit |
| Chejudo, Korea |
| 2. Research project |
| Preliminary identification surveys and underwater observation of Indo-Pacific bottlenose dolphins around Jeju island. |
| 3. Date (departing from/returning to Japan) |
| 2015. April. 29 – 2015. May. 05 (7 days) |
| 4. Main host researcher and affiliation |
| Dr. Byung-Yup Kim, Professor at Jeju National University, Ms. Soojin Jang (Ph.D student of Ewha Womans Unicersity) |
| 5. Progress and results of your research/activity (You can attach extra pages if needed) |
| Please insert one or more pictures (to be publicly released). Below each picture, please provide a brief description. |
| <p>My subject on this visit was to correct the each individual information of Indo-Pacific bottlenose dolphins around Jeju island and to observe the dolphin’s behaviors to underwater swimmers preliminarily. During this visit, we observed the dolphins from only on shore, because the vessel didn't sail by the but weather. Fortunately, we were able to find and track some dolphins. Their behaviors were different from the dolphins around Mikura island. I got the permission to use the data by recording the underwater camera and the some information that it was very important for my investigation. I will be able to start the basic study for the wild dolphins in Jeju island. In the future, I will be report these result with the local researchers.</p> |
| 6. Others |
| <p>I’m appreciated to professor Jae C. Choe at Ewha University, professor Tetsuro Matsuzawa at PRI, professor Masaki Tomonaga at PRI, and professor Shiro Kohshima at WRC. Moreover, I am extremely grateful for the kindness from professor Byung-Yup Kim at Jeju National Univeresity and Ms. Soojin Jang at Ewha University. It is a great honor for us that we do research with you and we hope this is just the beginning to many-more-year mutually beneficial relationship.</p> |
