

Research Activity Report
Supported by “Leading Graduate Program in Primatology and Wildlife Science”
 (Please be sure to submit this report after the trip that supported by PWS.)

	2017. 01. 19
Affiliation/Position	Wildlife Research Center/M1
Name	Sota Inoue

1. Country/location of visit
Niigata University, Niigata prefecture
2. Research project
Attendance to Japan animal ethology conference and a poster presentation
3. Date (departing from/returning to Japan)
2016.11.11-2016.11-13
4. Main host researcher and affiliation
5. Progress and results of your research/activity (You can attach extra pages if needed)
Please insert one or more pictures (to be publicly released). Below each picture, please provide a brief description.
<p>I joined Japan animal ethology conference in Niigata university and report my presentation. I had a poster presentation about research of spatial positions on feral horses in Portugal. Many presentations were about insects, birds and fish, but there were few presentations about mammals. Two point that using a drone and research of horses seemed to give impression to participants. Many participants were interested in using drone.</p> <p>This was first time for me to join to a conference. Therefore, I was strained, but I gradually got used to conversations and enjoyed exchanging opinions.</p> <p>Other presentations were not relation to my research directly. They have a creative view point surprising me. This was the reason, it was no matter to have relations to my research or not. They gave me motivation to research and have a presentation next year. This experience was so good opportunity for me.</p>
