Japan, Inuyama, Hakutei seminar house
2. Research project
Buddha Seminar "Science Communication Workshop"
3. Date (departing from/returning to Japan)
2017. 07. 23 (1 day)
4. Main host researcher and affiliation
OHBUCHI Masato (WRC-PWS Program Specific Assistant Professor / JMC Curator)
5. Progress and results of your research/activity (You can attach extra pages if needed)
Please insert one or more pictures (to be publicly released). Below each picture, please provide a brief description.
<p>In this seminar, Mr. Ohbushi explained about the science communication and we experienced it for the visitor in JMC. At the first, he talked about the importance of the science and communication including the his experienced situations in National Museum of Emerging Science and Innovation as the curator. Next, we tried to observe the visitors in JMC and talk with them. It was very difficult to get the chance for talking firstly. Moreover, in the case of the kids who talking with me, it also was difficult to expand the talking connected to science. It was important to record the detail of our dialogue for improving my communication skill and for reminding the my successful dialogue. I will try to practice this way in Kids Jamboree, outreach event in August.</p>
6. Others
Thanks a lot of the members of JMC and PWS office to arrange this seminar. I really appreciate to Prof. Takizawa and Cu. Ohbuchi.
