

Research Activity Report
Supported by “Leading Graduate Program in Primatology and Wildlife Science”
 (Please be sure to submit this report after the trip that supported by PWS.)

2017.1.4

| | |
|-----------------------------|-------------------|
| Affiliation/Position | PRI/D1 |
| Name | Shintaro Ishizuka |

| |
|---|
| 1. Country/location of visit |
| Shodoshima island |
| 2. Research project |
| Research: Male mating strategy in Japanese macaques in Shodoshima island |
| 3. Date (departing from/returning to Japan) |
| 2017.2.15-2.18 (4days) |
| 4. Main host researcher and affiliation |
| Choshikei-Shizendoubutsuen-Osarunokuni |
| 5. Progress and results of your research/activity (You can attach extra pages if needed) |
| Please insert one or more pictures (to be publicly released). Below each picture, please provide a brief description. |
| <p>The purposes of this research trip were ①to ask stuff the cooperation for recording dates when babies will be born in the coming spring, and ②to check the presence of identified individuals. Regarding ①, all stuff was very kind. I really appreciate it, and felt that relationships with local people is important for field works even if it is in home countries. Regarding ②, I could observe all individuals which were observed at the end of last fieldwork. On the other hands, although I had expected that some individuals which have already disappeared come back to the study troop, they did not. I got disappointed but this kind of experiences should happen in fieldworks. By learning from this, I would like to continue the fieldworks at this site.</p> |
|  |
| The highest ranking male, Danjuro |
| 6. Others |
| This program was supported by PWS Leading Program. I would like to appreciate this program, all stuff of Choshikei-Shizendoubutsuen-Osarunokuni. |
