

Research Activity Report
Supported by “Leading Graduate Program in Primatology and Wildlife Science”
 (Please be sure to submit this report after the trip that supported by PWS.)

	2019. 05. 18
Affiliation/Position	Wildlife Research Center/M1
Name	Tomoe Torii

1. Country/location of visit
Japan, Miyazaki, Koshima
2. Research project
Koshima field practice
3. Date (departing from/returning to Japan)
2014.05.07 – 2019.05.13 (7 days)
4. Main host researcher and affiliation
Koshima Field Station Wildlife Research Center, Kyoto University
5. Progress and results of your research/activity (You can attach extra pages if needed)
Please insert one or more pictures (to be publicly released). Below each picture, please provide a brief description.
<p>During this visit, I conducted research on the age difference of aggression in Japanese macaque. Also, I used this opportunity to achieve the basic ability of field work. Through this experience, I have developed the ability to use the equipment such as GPS, compass, binocular and so on, which will be of great help in my field work. I will participate in Yakushima field science course and develop this ability.</p> <div style="display: flex; justify-content: space-around;"> <div style="text-align: center;">  <p>The monkey I observed, which name is Tsuwa</p> </div> <div style="text-align: center;">  <p>Horses in Cape Toi</p> </div> </div>
