

Wednesday 22nd February, 2017

**Outline: CICASP Seminar 50
PWS Symposium Practice Talks**

This block of CICASP Seminars gives students the opportunity to practise their talk for the upcoming 7th International Symposium on Primatology and Wildlife Science (2nd-4th March). On Wednesday we listened to the following presentations:

Duncan

"How do chimpanzees discriminate primate species based on faces?"

Gao

"Learning the rules of the rock–paper–scissors game: Comparison between chimpanzees and human children ."

Yugo

"Preliminary research about sour taste perception of Sumatran orangutan (*Pongo abelii*) in Indonesia."

CICASP faculty and other students gave helpful feedback, comments and pointers. Members of the audience benefited from both giving and hearing feedback.

Wednesday 1st March, 2017

**Outline: CICASP Seminar 51
PWS Symposium Practice Talks**

Next week we will have two more speakers giving practise talks in preparation for the upcoming 7th International Symposium on Primatology and Wildlife Science. This will be the last in this block of seminars.

Our speaker line-up is as follows:

Josue

"Stress in Japanese macaques living in vegetated and non-vegetated enclosures".

Yuri

"Do chimpanzee also prefer baby to adult? : preliminary report."
