

Research Activity Report
Supported by “Leading Graduate Program in Primatology and Wildlife Science”
 (Please be sure to submit this report after the trip that supported by PWS.)

2017/2/19

Affiliation/Position	Primate Research Institute/M2
Name	Gao Jie

1. Country/location of visit
 Kyoto, Japan

2. Research project
 Annual Meeting of Psychology Unit of Kyoto University

3. Date (departing from/returning to Japan)
 2017.2.12 (1 day)

4. Main host researcher and affiliation
 Psychology Unit of Kyoto University

5. Progress and results of your research/activity (You can attach extra pages if needed)

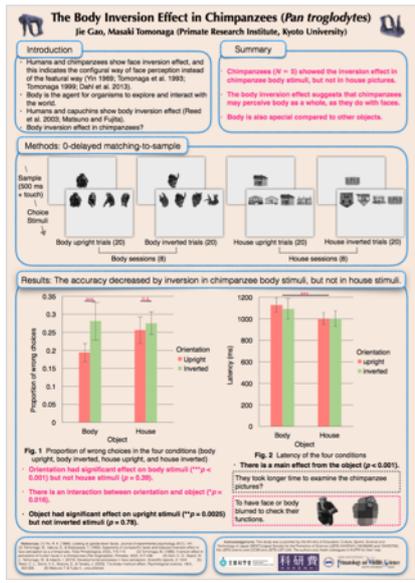

Please insert one or more pictures (to be publicly released). Below each picture, please provide a brief description.

The Psychology Unit of Kyoto University gathers psychology researchers from different departments and divisions. The annual meeting had a poster session for young researchers. I joined the poster session in Kyoto on 2/12 and made a poster presentation.

I reported the results from my new experiment, the body inversion effect in chimpanzees. People came to my poster and raised interesting questions. I received helpful advice and also had constructive discussion with some of the audience.

I just started this experiment, and the communication with other researchers were very helpful for my experimental design for the next step. I also enjoyed other posters. Many were in Japanese, but there was no problem communicating in English.

It was a great trip.

My poster
